

WHO ARE WE?

We are an international group of consultants who work with educators around the world putting the most powerful educational theory into practice in their schools and classrooms. We encourage schools to make learning more challenging and challenge them to re-imagine how, when, and where learning takes place, and work alongside them as they travel from where they are now, to where they want to be.

WHY ENGAGE WITH US?

We are a multi award winning company that can help you achieve your goals. Through a mix of workshops, coaching, data analysis, and demonstration lessons, we work with staff to improve learning outcomes for all students.

WHY NOW?

We have the capacity to help you now-be it through a one-day event, a series of accredited workshops or, even better, by engaging in our Learning Pit Process to ensure the gains you make are sustainable and long-lasting.

Many of the school and districts we are currently working with are funding their professional learning through ESSER and Title funds. We can guide you with meeting the standards required to access this funding.

WHAT DO WE OFFER?

We offer a variety of on site, virtual, and hybrid professional learning options. All of our supports are explicitly linked to a very clear and consistent foundation, which makes it possible to utilize any combination of our offers seamlessly. Our most significant offer is the Learning Pit Process. Gains from this include:

- increased staff engagement and job satisfaction (which in turn, is leading to significant savings on substitute teacher spending)
- better student learning outcomes (increases in standardized and local assessment scores)
- improved use of feedback, questioning and dialogue to enhance student learning Improved student motivation, resilience and curiosity, which reduces student behavior concerns
- a healthier attitude towards challenge, progress and achievement which improves social emotional regulation

LONG-TERM PROCESS

The most significant and sustainable improvement comes with our Learning Pit Process- a 2-3 year process where we:

- help you set your vision, coach your staff, build leadership capacity, and enhance professional dialogue
- run demonstration lessons, lead PD for all staff, and provide you with in-depth progress reports to show impact

DEMO LESSONS & MICRO TRAININGS

The instructional strategies and instructional foci that form the basis of our work have achieved success in schools all over the world. You can:

- schedule demo lessons so your staff can observe one of our team members using these strategies with your students
- arrange short seminars and workshops for your staff on any of our strategies

LEADERSHIP & COACHING SERIES

These can be delivered virtually or in-person. A leadership series designed to:

- help individuals or leadership teams develop a clear and concise vision
- develop a plan to realize the vision

A coaching series designed to:

- facilitate the thinking that improves learning
- connect the foundations of key coaching theory and best coaching practices

LEARNING PIT ACADEMY

An extensive and asynchronous study of James Nottingham's Learning Challenge book which is:

- built on a robust and interactive platform
- an instructional improvement journey which includes a study of impact
- an opportunity to interact with educators around the world
- for teachers, PLCs, leadership teams, etc..
- great for mentoring and induction programs

FAMILY ENGAGEMENT

We have recently published a new book that supports home learning with guidance for parents and guardians to support learning at home. Our team can:

- provide training for educators in ways to support families
- provide direct training to families and community members

OTHER OPTIONS

We also have other offers such as:

- online lesson resources
- commissioned videos
- coaching
- impact/evaluation support
- one and two-day workshops
- personalized supports to meet your needs
